sustainability matters

Sustainability is no longer a trend but a responsibility. That's why we are happy to introduce new additions to our range of sustainable packaging, designed to help you reduce your environmental impact without compromising on quality or style.

What is PFAS?

Per-and-polyfluoroalkyl are man-made "forever chemicals" traditionally added to make bagasse water and grease resistant.

It is food safe, the problem occurs when used packaging breaks down in the environment. They don't naturally degrade and can end up contaminating groundwater for a very long time.

We are PFAS Free and suitable for home composting!

Berlinkys, Glasgow

CHEF rated

Berlinkys is an exciting new live entertainment venue that opened in October last year.

We had the delight of talking to head chef Andy all about how this venue blend food and entertainment.

APRIL 2025 |

Andy @ Berlinkys

Can you tell us a little about Berlinkys?

Berlinkys is a new live entertainment venue first and foremost, with live acts 7 nights a week. There's no one else in town that's the same. We're a very large venue, every Friday and Saturday night we have circus performers, burlesque dancers, pole dancers, you name it. But its free entry, there are no ticketed events, we don't charge for tickets ever.

How does having live performers affect how you create your menu and serve food?

We're still working on that, we only opened in October. I think it's hard, because there are people in partying and people in eating, so it's hard to find a mix where it works well together, we are getting there. We try to do a bit of everything because we do cater to everybody. There might be an 18th birthday in but then there might be a 60th, and there might be a hen do party. Everybody comes in so we need to cater to everybody.

What do you think attracts such a broad customer base?

It's just an exciting new venue, everybody wants to try it. We don't alienate anyone. You go in some venues and you think this is not for me, it's a young crowd or this is an older person venue. It brings fresh energy to the place all the time.

What is the most popular night and brings the most buzz?

It changes, Thursday is my favourite because its band karaoke, so its karaoke but with a live band. Everyone goes up and gives it a bash, some are really good, some are not so good, but it's still enjoyable.

WHAT'S IN SEASON

As we head into Easter, these seasonal ingredients provide endless possibilities for creating dishes that feel fresh, exciting, and connected to the changing season. Spring brings a bounty of vibrant produce, from tender asparagus and peas to bright herbs like mint and dill.

For starters - consider a fresh pea and mint soup, perfect as a light appetizer. Asparagus, whether roasted or grilled, pairs beautifully with a poached egg for a simple yet elegant dish. A vibrant beet and goat cheese salad with arugula and toasted walnuts can also add a seasonal touch to your menu.

Main courses - feature spring lamb, which is at its best this time of year. A herb-crusted roast lamb or a slow-braised lamb shank with root vegetables is sure to impress. For lighter options, grilled fish, such as sea bass or trout, served with a citrusy spring vegetable medley, makes for a refreshing and flavourful dish.

For dessert - embrace the season with a rhubarb crumble or a strawberry shortcake, both of which showcase the first fruits of spring. Pair with a scoop of Scottish ice cream, like Orkney Ice Cream, to bring a creamy, indulgent touch to your seasonal menu.

We're thrilled to introduce our refreshed Roast 440 brand - the coffee you know and love, now with a bold new look. Rest assured, our commitment to quality remains unchanged, and each cup is still filled with the rich flavours you expect.

WHAT'S CHANGED?

To better reflect the quality and craft behind Roast 440, we've refreshed our branding with a bold new look that stands out. In addition, we've updated the names of our blends to make them clearer and more memorable for you and your customers.
